The Problem

Loose, wobbly bathroom accessories.

The Cause

Traditionally bathroom accessories were attached to the mounting using set screws, which had to be retightened regularly to keep the accessory in place.

The Solution

Bathroom Butler bathroom accessories. We have developed an innovative mounting system called RIGID Loc to ensure bathroom accessories don't come loose or wobble free on their mounting.

RIGID LOC – **DESIGN MEETS INNOVATION**

We have developed an innovative mounting system called RIGID Loc to ensure bathroom accessories don't come loose or wobble free on their mounting. (SA Patent 2012/05046)

ENGINEERED DOWN TO THE FINEST DETAIL

Firmly secured to the mounting, the unique RIGID Loc mounting pulls the accessory firmly against the cover plate and locks it securely in place.

Prevents Movement

The gripping ribs along with the adhesive template help prevent movement even on ultra-smooth surfaces.

Secure Mount

As the screw tightens the t-barrel slides down the mounting locking the bathroom accessory securely in place.
