## RIGID LOC – DESIGN MEETS INNOVATION

We have developed an innovative mounting system called RIGID Loc to ensure bathroom accessories don't come loose or wobble free on their mounting. (SA Patent 2012/05046)

### The Problem

Loose, wobbly bathroom accessories.

### The Cause

Traditionally bathroom accessories were attached to the mounting using set screws, which had to be retightened regularly to keep the accessory in place.

### The Solution

Bathroom Butler bathroom accessories. We have developed an innovative mounting system called RIGID Loc to ensure bathroom accessories don't come loose or wobble free on their mounting.

## ENGINEERED DOWN TO THE FINEST DETAIL

Firmly secured to the mounting, the unique RIGID Loc mounting pulls the accessory firmly against the cover plate and locks it securely in place.

### Prevents Movement

The gripping ribs along with the adhesive template help prevent movement even on ultra-smooth surfaces.

### Secure Mount

As the screw tightens the t-barrel slides down the mounting locking the bathroom accessory securely in place.

### GRADE 304 Stainless Steel

100% Recyclable, rust and flake free, durable and easy to maintain.
